Linwood Iris Gardens

...

BLANCHE COVERT

1351 South Hydraulic Avenue
WICHITA, KANSAS

INTRODUCTORY

HEALTHY PLANTS. All plants have been thoroughly inspected, and are sold by authorized permit from the ENTOMOLOGICAL COMMISSION of the State of Kansas.

TIME OF DELIVERY. Will begin filling orders June 20, or as soon thereafter as weather conditions permit. Years of experience and observation in growing iris in this locality, where we have a very hot August, a month that causes more discouragement to plant enthusiasts than all others, has given positive proof that rhizomes set the latter part of June or as early in July as possible give best results. Knowing the exact happenings after setting the rhizome explains this theory. In about four days tiny roots shoot out from the body of the rhizome, also from the old roots remaining on the rhizome at the time of planting. These new roots continue to grow under favorable conditions, which usually last until our hot, dry season in August. The early growth made materially strengthens the new plants for this trying period. During the latter part of the season more root growth is made, also from the sides of the rhizome new shoots appear and the entire growth continues until freezing weather, usually about first part of November. With ordinary garden care iris handled in this manner are almost sure to give one or more fine bloom stalks the following season. Delivery will be made to suit the customers convenience as nearly as possible, and orders will be filled any time until freezing weather.

STOCK TRUE TO NAME. All varieties are guaranteed true to name. No substitutions made unless a second choice is made. Continued success in the iris business depends on satisfied customers, and this is my constant aim. Each order receives the best rhizomes possible. All orders are filled by plants grown by me under the most exacting methods. Mistakes are reduced to a minimum, and should one occur will cheerfully and promptly adjust same. In cases of mistake, purchase price will be refunded, or if customer prefers, will be adjusted by supplying new stock of other varieties. No further adjustment will be made. No adjustment of any nature will be made after the season following the purchase of plants.

TERMS. Free delivery on orders of one dollar. Smaller orders, 15c for mailing charges. A small

deposit will hold local orders placed at blooming time.

SERVICE. A personal service goes with each purchase. Am always glad to assist with advice as to arrangement of colors and heights, and will cheerfully help you solve your garden problems. The garden is open Sundays during the blooming season to accomodate those who cannot come during the week. The most satisfactory way to make your selections is from blooming plants. Special prices will be quoted on large quantities, including the planting, where mass color arrangement is desired.

ZINC LABELS on No. 10 galvanized wire stake complete, 3 cents each. These labels are permanent and by far the most economical type of label I have ever used.

WRITE ME A LETTER. Tell me about your garden and your garden troubles too, if you have any. Tell me just what you think of the grade of rhizomes I am sending out and if you have been pleased. If you are I love to hear it, and if not I want to get at the bottom of the trouble. And friends these letters are my personal, private treasures and will not be published for advertising purposes.

MEMBER OF
THE AMERICAN IRIS SOCIETY

New Faces in the Iris Family

Many pleasant surprises await the 1934 visitors to the garden. Following are a few of the new varieties expected to bloom this year.

First will be mentioned **GOLDILOCKS** (Wayman). A dulled tone of yellow sure to become a general favorite. Long blooming season combined with fine garden habits, making an especially beautiful clump. **RED ROBE** (Nichols). One of the real top-notch reds. Probably the best iris yet introduced by Mr. Nichols. **RED DOMINION** (Ayers) is worthy of all the favorable comment received the past two seasons. Much more red than Cardinal, and having the same velvety flaring falls so typical of the Dominion strain. **DAZZLER** (Williamson) is an improved Seminole. **ROB ROY** (Kirkland) compares well with the best reds. It seems we never have too many of these in the garden. **MOON MAGIC** (Shull) is a fine large flower, well proportioned. An alluring creamy color too light to be called yellow, yet distinctly not white. All of the Shull irises are quite hardy to cold, and adapt themselves readily to our tempermental climatic conditions. **N A N O O K** (Ayers) is a fine warm white of proven quality in the east. How I hope it will enjoy our local climate that we may add variety in this color class. **ZA-HAROON** (Dykes). While not as new as the others mentioned, this very fine blend has been so popular that stock is still scarce and high priced. Not considered as rugged as one might hope. Two new Loomis irises should bloom, as plants made good growth. **CHROMYLLA**, a truly fine medium yellow. Has size, shape and a clear rich color. **SPRING MAID** while a quality iris, tall pink, is much too high in price compared with other good pink varieties such as Frieda Mohr, Rhein-auperle, or Rosado. **KLAMATH** (Kleinsorge). A dark purple with a bronze blend at throat, is outstanding for its size. Good form and substance. I hope to fill a real need for a good tall blue with **BLUE BONNET** (Egelberg). As this variety appears to have good rugged growing habits it surely will have a great future.

Jacob Sass Irises. These are the pride of the garden. All being thoroughly acclimated to this section of the country, we take no chances of failure when selecting from this fine list. I predict he will be winner of the much coveted Dykes Medal within the next two years. **GOLDEN HELMET**, the most brilliant variegata yet introduced. The rich red of the falls remains outstanding well into heavy dusk of late evening. Flowers carried well above the foliage on sturdy stems. **QUIVERA**, one of those blends popular with every one and impossible to describe with any degree of accuracy. Lets call it a

soft light blend with pink predominating. Mr. Sass is naming one of his irises PINK OPAL. This is a sister seedling of Pink Satin, of very similar color and just a little taller. Seems to be even a better grower. What appears to be the successful achievement of many years of scientific hybridizing, is represented in a huge flowered iris of deepest indigo purple. Standing on tall strong stems it immediately commands the attention of every visitor, being as it seems, as near perfection as one can imagine. Size, shape and a color deep and rich, overshadowing others in this color classification. A

JACOB SASS

On my visit to Mr. Sass' garden last spring I snapped this picture of him, May 26, 1933, standing among a planting of his high grade white seedlings.

strong division planted last August gives promise of at least one fine bloom stalk. Mr. Sass told me he was naming this iris BLACK DOUGLAS. BAL-ROUDOR, BLUE TOPAZ, GRAY CLOUD and STORMY DAWN a new type of dwarfs introduced by him in 1933 are due to bloom this season. They are tiny gems of such unusual appearance they receive much comment, and will become very popular when generally known. These bloom with the

early dwarf (pumila) irises. WAR EAGLE must have a few words of comment. One can gain somewhat of an idea the quality of this huge red variety when we say the demand during the 1933 season far exceeded the supply at \$20.00 per single rhizome. Easily twice the size of many of the so-called large varieties. If it has a fault would say it is too profuse a bloomer. How we wish more of these large flowered varieties had this fault.

Mr. H. P. Sass, also producer of many fine modern irises including Rameses, the Dykes Medal winner in 1932, is each year releasing new varieties of outstanding quality, including the greatest variety of fall blooming irises yet introduced by any one breeder. He is maintaining his high standard of quality in this strain, and is doing a real service for future generations of iris fans. A very nice variety of these are being shown in my garden and as they all make excellent showing during the spring bloom visitors are invited to give special attention to this new strain of irises. One in particular I like very much, ULTRA. A dwarf, yet large enough both in plant and size of bloom to be very beautiful. The clear blue, being almost as true blue as is found in the delphiniums, is especially pleasing with the pink darwin tulips.

Included in this list will be found several moderately priced varieties not in last years list. These have been in the garden under test and have satisfactorily met general garden requirements necessary to recommend them to local trade. Many are now under such test not included in the list. If a particular variety is wanted, ask about it, more than likely it is growing right here in the garden.

*Gardens and the folks who work in gardens
These are my friends,
Along some garden walk I visit and I talk.
Till Autumn ends—
And in the winter time I read
My catalog of gardens seeds.*

Bearded Iris

3 FOR 2

(Three of the same variety for the price of two)

†This prefix appearing before a variety indicates one which grow rhizomes below the average in size. However, most of these little fellows are quite rugged and grow as readily as the larger varieties. Among them will be found some of the most desirable novelties, many with very high rating.

- Aareshorst**—Rich even tone of red, subdued with an infusion of bronze, giving the falls a very distinctive metallic cast-----Each 25c
- Acheron**—Deep violet-purple. A tall, striking variety with medium sized flowers-----Each 25c
- Afterglow**—See bargain list.
- Alcanna**—S. brown shading to yellow at throat; F. violet carmine. A rich bright blend fine for massing as it has great carrying power -----Each 25c
- Alabaster**—Pure white about 34 in. Falls flaring gracefully. Extra good substance--Each 25c
- Alcazar**—See bargain list.
- †**Allies**—One of most beautiful colors found in the iris. Very rich bronzed red. Low growing but always admired. Sure to please----Each 25c
- Allure**—Very delicate blend with pink predominating. A new iris sure to become a general favorite among the lighter colors-----Each 75c
- Alpenglow**—A plum colored bicolor of striking size. The rich falls blend to a lighter shade at margins. A fine rugged garden variety. Ea. 25c
- Amanecer**—S. yellow, deepening in color at the throat; F. light phlox purple shading to pale violet. A yellow and pinkish lavender bicolor with exceptional carrying quality-----Each 25c
- Ambassadeur**—See bargain list.
- Amas**—See bargain list.
- †**Amber**—See bargain list.
- Amerind**—Attractive dull golden blend. Finest of habits, the stalks being tall with several flowers open at a time. A general favorite in the garden. Robust-----Each 40c
- Andante**—Rich velvety raisin purple, and an outstanding iris in this color class. Fragrant -----Each 50c
- Angelo**—Medium toned blue bicolor. Fine. Only a few rhizomes offered-----Each 25c
- Ann Page**—Enormous light blue flowers on tall well branched stems-----Each 25c
- Ann Leslie**—See bargain list.
- Antares**—Almost a white, with S. and F. speckled and overlaid blue. A novelty sure to attract attention. Not similar to any other iris listed. Fine, large fragrant flowers----Each 25c
- †**Apache**—Coppery brick red that is really red. Not a large iris, but a very desirable one. Makes a fine, rich clump. Extra hardy--Each 25c
- Aphrodite**—Smooth even tone of bright pink. A pink for the back and one to be depended on to bloom every year. By all means raise and enjoy this fine iris. Stands up in fine clumps 44 in. with a long blooming season-----Each 25c

- Archeveque**—See bargain list.
- Aristocrat**—See bargain list.
- Arlette**—White with a very faint cream tint.
A finished, stylish flower. Medium.----Each 25c
- Arnold**—Beautiful brown toned bicolor. When
planted in mass gives very fine effect.---Each 25c
- ‡**Argynnis**—See bargain list.
- Asia**—Blend of silvery lavender and yellow.
One of the most stylish and probably the
sweetest scented iris grown. Tall.-----Each 25c
- Autocrat**—See bargain list.
- Aurelle**—Very deep, rich purple. Sure to be
come very popular. Rather early.-----Each 35c
- Autumn King**—A proven fall blooming var-
iety. Blue bicolor. -----Each 25c
- Autumn Queen**—One of the finest fall bloom-
ers. A pure white of fine size. Early.---Each 35c
- Avatar**—S. buff; F. pansy-violet. Large stately
flowers with yellow center, which give an ef-
fect as though it were lighted from within.
Very desirable. 36 inches.-----Each 25c
- Balboa**—See bargain list.
- Baldwin**—Manganese violet. Very peculiar
shade and one of the largest flowered.---Each 50c
- Ballerine**—Light blue. Huge flowers of finest
form on tall, strong stems. Regardless of
price there is nothing finer in this color
class -----Each 25c
- Bealder**—Yellow bicolor with attractively blen-
ded falls. One hard to describe. Hardy.---Each 25c
- †**Beau Ideal**—White with solid half inch border
of Chinese violet on both S. and F. 30 in.
Each ----- 25c
- Beau Sabreur**—S. yellow flushed purple; F.
oxblood red, margin slightly paler. One of
the best variegatas. Standards somewhat
flaring -----Each 75c
- Bertrand**—Large blue bicolor of DOMINION
parentage. Falls velvety -----Each 25c
- Blackamoor**—One of the finest dark purples
yet introduced. A blackish violet when first
opened. Tall and free blooming.-----Each \$3.00
- Black Prince**—See bargain list.
- Blue Bonnet**—Large blue-purple. A fine iris;
tall and extra well branched.-----Each 50c
- Bluet**—See bargain list.
- Blue Velvet**—This blue self, intensely rich,
dark and velvety, always creates a sensation
when blooming. Probably no iris in this color
is so popular. Vigorous. Perfect branch-
ing -----Each \$3.00
- Bonnie Blue**—A splendid medium blue, just a
little later than the main group, furnishing
this much needed color at the latter blooming
season -----Each 25c
- Bruno**—Velvety, bronzy purple. Truly one
of the outstanding irises. Ample stock per-
mits this unheard of price. Be sure and in-
clude one or more in your order.-----Each 25c
- Buto**—S. royal purple; F. velvety blackish vio-
let. Extra large well formed flowers. 30 in.
Each ----- 50c
- B. Y. Morrison**—S. pale lavender; F. velvety
raisin purple widely bordered lavender.---Each 20c

- Candlelight**—Rosy mauve with soft suffusion of gold. World's highest rated iris prior to 1932. Tall and extremely late.-----Each 25c
- Canopus**—Rich velvety purple bicolor F.. prune purple. DOMINION seedling-----Each 25c
- Cantabile**—S. pure white; F. violet, shading to a broad white margin. Outstanding, and truly an improved Rhine Nixe-----Each 35c
- Caporal**—Deep red toned violet self----Each 20c
- Caprice**—See bargain list.
- Cardinal**—S. lavender, shot rose; F. velvety dark reddish purple. A distinguished iris of perfect form and poise. Recommended--Each 50c
- Caterina**—See bargain list.
- Cecil Minturn**—See bargain list.
- Chalice**—The most popular yellow ever grown in my garden. Pure medium tone with best of habits. The one yellow for general garden use -----Each 25c
- Challenger**—Intense, velvety blackish violet with fine broad flaring falls. Early. A grand iris having quality, size and substance of the mid season varieties.-----Each 25c
- Chasseur**—An attractive combination of yellow with red veinings at throat-----Each 25c
- Churchmouse**—Hay's brown self. A new iris whose popularity is assured. 34 in.----Each 40c
- Cluny**—See bargain list
- Colonel Lindberg**—Brilliant blue bicolor. Among the very best in this class. 40 in.--Ea. 50c
- Conquistador**—Largest flowers of deep mauve. Stems 55 in. tall in garden, with many flowers open at a time-----Each 25c
- Coppersmith**—Rich coppery-red. Many large flowers open at a time. This fine tall iris will stand comparison with any iris grown--Each 50c
- Coronado**—S. lavender; F. red purple with pale lavender edging| 36 inches-----Each 25c
- Cretonne**—See bargain list
- Crimson Glow**—Large flowers of light red purple. Only a few rhizomes offered for sale
Each -----25c
- Crimson King**—See bargain list.
- Crusader**—Large flowers of clear violet blue. Makes fine blue effect in the garden.----Ea. 20c
- Cygnets**—A graceful, creamy toned variety introduced by Miss Sturtevant. Tall and sturdy -----Each 25c
- Dalila**—See bargain list.
- Damozel**—White, S. and F. distinctly edged blue. One of the finest plicatas. 38 in.----Each 25c
- Dauntless**—Conceded to be one of the very finest recent introductions. Brilliant velvety red. Awarded the Dykes Medal in 1929--Ea. \$1.50
- Dawn**—See bargain list.
- Day Dream**—A very pleasing soft pink. Tall vigorous, growing over 40 inches-----Each 50c
- Decennial**—S. clear bright yellow; F. dahlia carmine with narrow yellow margin. At the throat a dash of blue combined with the beautiful yellow beard, makes this a most distinctive iris. -----Each \$1.50

- Depute Nomblot**—The finest iris yet introduced by Cayeux, and one that will be in every garden as soon as stock is available. One of those medium dark blends which must be seen to be appreciated. Bronzy purple, gold and claret ----- Each \$5.00
- Dolly Madison**—Pinkish mauve. Attractive bright orange beard. Is classed one of the world's best ten. Strongly recommended--Ea. 50c
- Dominion**—Rich indigo purple, very velvety. This is parent of many of the finest irises. Ea. 75c
- Don Quixote**—Monster flowers of pale buff, blended soft lavender. Very fine-----Each 25c
- Dorothea**—See bargain list.
- Dorothy Dietz**—S. light, almost white; F. pansy violet with slightly lighter margin. Large flowers on strong well branched 38 inch stems. -----Each \$1.25
- Douglas**—Rich blue purple. Introduced by J. Sass. in 1932. Tall and well branched--Each \$1.50
- Dr. Chas. H. Mayo**—Large medium toned pink. Extremely fragrant. Only a very few rhizomes offered. Justly claimed to be one of the best pinks in the medium price range. Early. -----Each 25c
- Dream**—See bargain list.
- Duke of Bedford**—Rich deep violet purple. Broad flaring velvety falls. Vigorous--Each 25c
- Duke of York**—Large, nicely shaped flowers of light bluish lavender. 46 in.-----Each 25c
- Edgewood**—Deep pink bicolor. A desirable garden iris, because of very fine habits. Each 50c
- Eldorado**—See bargain list.
- Elizabeth Egelberg**—Am indeed glad to offer this super iris at this modest price. Tall, standing well above 40 inches, and one of the most beautiful shades of pink. Perfect branching habits. Introduced in 1930 by Mr. Egelberg, and rapidly attaining deserved popularity. -----Each 50c
- Endymion**—Tall, large flowered, buff blend. Outstanding in its color class-----Each 25c
- Esplendido**—Unusually large, red toned bicolor. Color and size combined with the fine height make this a very fine variety where lots of color is needed. Hardy everywhere
Each ----- 25c
- Evadne**—Smooth, bronzy rose-red self with heavy orange beard. Fragrant. 40 inches--Ea. 25c
- Eventide**—See bargain list.
- Fairy**—See bargain list.
- Farandole**—S. French grey with strong suffusion of rose in the center; F. purplish rose with broad margin to match the standard. A new iris of very high quality. 36 inches--Ea. \$1.00
- Fedora**—See bargain list.
- Flamingo**—A light, warm rosy red, the brilliant beard giving a strong central infusion of yellow. A very fine rugged variety, and is truly a desirable addition to any choice collection. -----Each 35c
- Folkwang**—S. white, faintly flushed rose; F. claret red. edged cream. A very handsome iris recently introduced from Germany--Each 25c

- Fragonard**—Very beautiful rose-pink. The falls shade deeper tone. An iris commanding instant attention as one glances over the garden. ----- Each \$1.00
- Friar Tuck**—Blackish purple veined and spotted maroon on the haft. 34 in.-----Each 25c
- Frieda Mohr**—One of the finest pink irises ever introduced. Huge flowers with very attractive flaring falls, on tall, well branched stems. Locust blossom fragrance-----Each 50c
- Fro**—See bargain list.
- Gay Hussar**—I am glad to offer in this years list, this variety, one of the brightest and most popular in its color class. S. a beautiful shade of deep yellow; F. deep rich oxblood red. A fine clear contrast, highly recommended. -----Each 35c
- Geo. J. Tribolet**—Almost black with rich velvety falls. Freely recommended. 40 in.---Each 25c
- Geo. Yeld**—Very large flowers. S. apricot yellow shaded rose; F. brilliant wine red edged buff. Several flowers at a time. 36 in.---Each 25c
- Georgia**—See bargain list.
- Germaine Perthius**—Exceptionally fine shaped flowers of deep purple, falls being broad and velvety. This variety ranks with the highest class modern hybrids of today-----Each 50c
- Gertrude**—See bargain list.
- Gloriae**—Good tall light blue-----Each 50c
- Glowing Embers**—S. tan; F. velvety rich crimson. One with the finest of habits. The fine tall stems stand well above the foliage.---Each 25c
- Golden Glory**—A tall mid-season yellow. The best iris introduced by Prof. Jackson. Hardy, and when well established is very satisfactory -----Each 25c
- Goldilocks**—A smooth soft yellow which must be seen in clump to be really appreciated, as it has that most desirable trait of clumping well. With its many stems of uniform height, the name is very befitting. A prolific bloomer -----Each \$3.00
- Gold Imperial**—Medium sized flowers of a very beautiful chrome yellow. Rapid increaser. -----Each 25c
- Grace Sturtevant**—One of the richest dark, velvety irises. Words cannot do justice to such a beautiful creation. The partly open buds are as beautiful and rich as the open flowers. Hardy in the coldest climates. 36 inches -----Each \$3.50
- Grapta**—See bargain list.
- Gretchen**—S. white with faint flush of pink; F., a bright deep rose. Only a few rhizomes offered -----Each 50c
- Grevin**—See bargain list.
- Grisette**—S. Walnut brown; F. Manganese violet. Effect a pink blended with tan. 34 inches -----Each 50c
- Harpalion**—See bargain list.
- Harriet Presby**—Fine tall pink late enough that it fills a real need in the garden. A favorite with everyone. Fragrant.-----Each 25c

- Havamal**—Cream standards; F. violet-blue edged cream. Flowers much larger than usually found in this color class. Extra rampant -----Each 25c
- Helios**—Enormous, perfectly formed flowers of pure lemon yellow; very pale violet reticulations on the falls becoming almost invisible as the flowers open. A beauty, with fine substance -----Each \$3.00
- Her Majesty**—See bargain list.
- Hiawatha**—See bargain list.
- Hussard**—Dull blue. An unusually smooth satiny finish to the nicely shaped flowers make this iris greatly admired. 34 inches----Each 25c
- Hyacinthus**—A large flowered, rich reddish brown bicolor. One of those fine rugged Williamson iris, which will compare favorably with others priced much higher. Distinctively attractive -----Each 25c
- Ideal**—This is indeed an "ideal blue". S. purest blue with falls a tone deeper. Medium size and height. The blue you have been looking for -----Each 25c
- Irma Pollock**—S. magenta; F. rich velvety carmine. In effect a lovely glowing red. Good size and substance and very pleasing in every way. -----Each \$1.50
- Imperator**—See bargain list.
- Indian Chief**—The deep rich velvety red seen in the flowers is suggested by the very apt name given this variety. Tall, strong and vigorous. Am glad to offer this fine iris at this modest price. Wonderful substance.---Each \$1.00
- Ingeborg**—See bargain list.
- Iris King**—See bargain list.
- Isoline**—See bargain list.
- Jacinto**—See bargain list.
- Jack Rose**—Bright red violet self. Flowers on tall strong stems in great abundance. This is to become a very popular iris for mass planting. Rapid increaser.-----Each 35c
- Jacqueline Guillot**—Mammoth flowers of lustrous soft, light lavender. 36 inches----Each 25c
- Jane Williamson**—Iridescent pink pastel, with bright orange beard. 36 inches. Free flowering and vigorous. Fragrant. Beautiful in sunlight. -----Each 35c
- †**Joshua**—Heavily ruffled, deep rich purple. A heavy white beard produces a very odd and attractive appearance. Real early-----Each 25c
- †**Jubilee**—S. light buff fading to peach; F. creamy white, the whole flower peppered with dull purple dots. One of the most ruffled, and attractive among the newer novelties--Each 25c
- Julia Marlowe**—Tall rich pinkish red iris produced by the noted hybridizer. Shull----Each 25c
- Juniata**—See bargain list.
- Kalos**—White, faintly flushed and peppered rose. Dainty ruffled flowers. 22 in.----Each 25c
- Kansas**—If I had to make a first choice among the pink irises, Kansas would be first choice. The mammoth flowers of fine form and substance are held 44 inches on extra strong, well branched stems.-----Each 35c

- Kastor**—See bargain list.
- King Juba**—S. old gold; F. rich velvety carmine. An iris of outstanding quality, probably holding first honors in this class. 34 in. Each \$4.00
- King Karl**—The best of the Sass plicatas. Beautiful ruffled flowers blended cream and apricot lightly sprinkled with purple dots. Very rugged grower, about 26 inches.—Each 25c
- King Midas**—A most unusual blend. Soft golden buff reticulated with pleasing shade of garnet brown. It is impossible to describe the captivating beauty of this superior iris. Ea. \$1.00
- King Tut**—Rich reddish brown. Dominating and striking. One of the high spots in an iris garden. 30 inches.—Each 75c
- Klamath**—The outstanding feature of this variety is its huge size. A bronzy, violet purple bicolor that bears acquaintance.—Each \$1.00
- Kochii**—See bargain list.
- †**Labor**—Deep dull red with a decided sheen of coppery blue. One remembers this iris as one of the most stylish of all, having an unusual amount of individuality.—Each 25c
- Lady Byng**—See bargain list.
- Lady Foster**—Large fragrant flowers of a beautiful light lavender blue. 36 in.—Each 25c
- L'Aiglon**—Tall, rich bronzy-red bicolor. A robust iris of unquestionable quality.—Each 50c
- Le Corregge**—Brilliant deep red-brown, with outstanding bright orange beard. While dark, this iris carries enough color to be desirable in the garden, and is a very fine addition to this color class. Sweetly scented. Ea. 50c
- Lent A. Williamson**—See bargain list.
- †**Lenzschnee**—Large flowered white with extra broad falls —Each 25c
- Leonidas**—See bargain list.
- Leverrier**—S. Rosy mauve; F. bright pansy violet. Tall variety carrying lots of color. Ea. 25c
- Lohengrin**—See bargain list.
- †**Lona**—One of the most beautiful color combinations found in the iris. The base color is a soft rose, which in clump carries very much of the pink. Heavily ruffled. 25 in.—Each 25c
- Lord Lambourne**—See bargain list.
- Lord of June**—Light blue bicolor. Falls of the extra large flowers droop gracefully giving this variety an individuality all its own. A fine iris well deserving of its popularity. Ea. 25c
- Loreley**—See bargain list.
- Los Angeles**—Large white, S. faintly edged blue. F. beautifully reticulated brown at the base. Tall widely branched.—Each 75c
- †**Louis Bel**—Dark pansy violet. Positively the darkest iris in the garden. Always a source of much admiration. 30 inches.—Each 50c
- Magnifica**—Huge red violet bicolor— Commonly the flowers will measure over seven inches, with several open at a time. 36 in.—Ea. 25c
- Majestic**—S. blue, flushed bronze; F. brilliant raisin purple. A Dominion seedling with beautiful broad, flaring velvety falls.—Each 25c
- Mamie**—S. and F. clear white, frilled and penciled light violet. Very dainty. 26 in.—Each 20c

- Mareschal Ney**—A rich red bicolor with a distinct brown tone; the whole flower enlivened by a bright orange beard. Large well formed flowers. Very vigorous, and always greatly admired. -----Each \$1.50
- Matilda**—The bluest of the plicatas. Bluer and not as dark as Nehawka. Medium large flower. -----Each 25c
- Mariposa**—See bargain list.
- Mary Barnett**—A beautiful clear pale blue. To the discriminating this iris is conceded to be one of the best light colored ones ever produced. Fully 36 inches and rugged-----Each 25c
- Mary Garden**—See bargain list.
- Mary Gibson**—Tall bronzy rose blended very beautifully. A real improvement over our old favorite, Quaker Lady. Recommended--Each 25c
- Mary Williamson**—A rare color combination. S. white and F. purple with wide border of white. Very fine as a cut flower. 30 in.--Each 25c
- Medrano**—Smoky, claret red. An iris of proven merit, worthy to be seen in any modern collection. Very late-----Each 25c
- Midgard**—Pink and yellow blend. The blending of the colors seem to have reached the last degree of perfection. Many of the fine stylish flowers open at a time on even stems. 30 in. Stands hot weather extra well. If left to popular vote I believe this iris would rank first. It's habits are perfect and it is an exceptionally heavy increaser. Very beautiful for mass planting -----Each 35c
- Midwest**—Ruffled flowers, flushed and dotted deep rose on a white ground. This catchy little novelty is a general favorite. 24 in.--Each 25c
- Midwest Pride**—An outstanding iris. In effect a rich reddish purple with fine carrying power. Large flower of good substance. 36 inches. -----Each \$1.50
- Mildred Presby**—S. soft ivory white; F. bright ruby. Produces a very striking garden effect. 27 inches -----Each 25c
- Ministre Fernand David**—A large and striking flower of very dark, rich red purple. An advancement in this color class. A prize winner. -----Each \$5.00
- Mlle. Schwartz**—Tall, large pale mauve self of perfect form -----Each 20c
- Mme. Abel Chatenay**—S. rose ash; F. old rose -----Each 25c
- Mme. Cecile Bouscant**—Clear orchid pink. Makes a fine specimen variety-----Each 25c
- Mme. Chereau**—See bargain list.
- Mme. Cheri**—Very rugged, tall beautiful pink warmed by a soft yellow undertone----Each 25c
- Mme. Chobaut**—See bargain list.
- Mme. Durrand**—Pale buff and creamy lavender marked old gold. Large flowers. Has been blooming well in this climate-----Each 35c
- Mme. Henri Cayeux**—Rich violet brown very near black in certain lights. 34 inches--Each 25c
- Moa**—Large flowers of deep purple-violet. Ea. 65c
- Moliere**—See bargain list.
- Monsignor**—See bargain list.

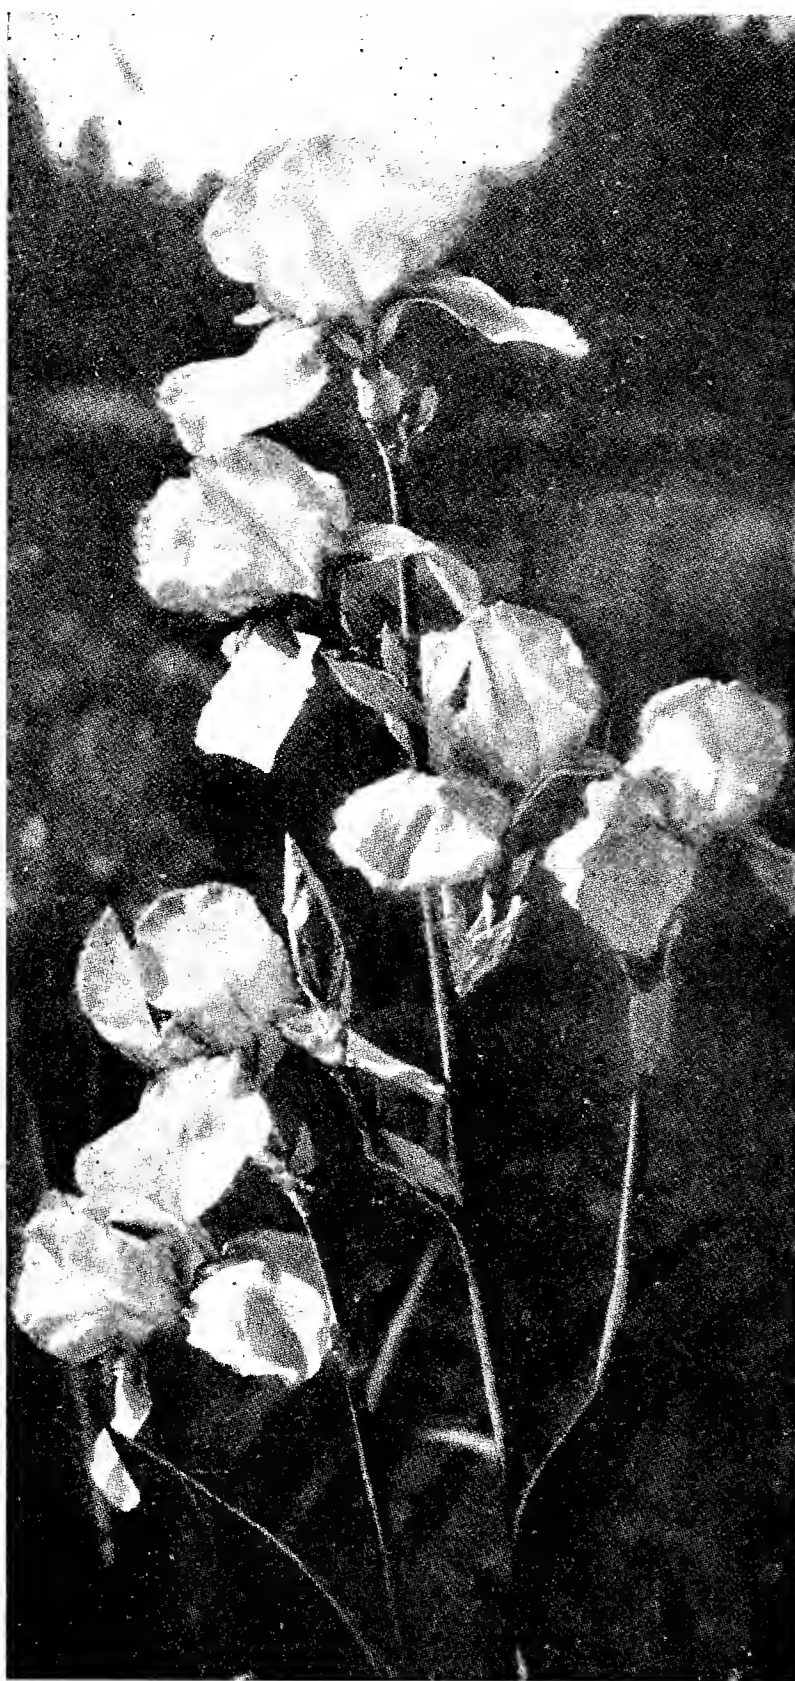

- Monterey**—Dark bronzed red bicolor. Tall with nicely shaped flowers-----Each \$1.00
- Moon Magic**—A soft shade of medium light yellow. Not a clear color, but one that lends itself well to the general garden picture. Extra large well formed flowers and a vigorous grower. -----Each \$3.00
- Morning Glory**—For brilliance, this tall red-violet has no superior. Sure to be one of the most popular varieties ever introduced. Very special low price. -----Each \$1.00
- Morning Splendor**—Huge flowers producing a deep red effect. Among the very best regardless of price. The iris that made Shull famous as a hybridizer. 34 inches-----Each 25c
- Mother of Pearl**—See bargain list.
- Mt. Penn**—See bargain list.
- Mrs. A. S. Hoyt**—S. light purple; F. white, striped petunia violet, with a distinct heart shaped white spot in the center. 26 in.--Each 25c
- Mrs. Hetty Matson**—See bargain list.
- †**Mrs. Marion Cran**—Tall bright rose-pink. Each 35c
- My Maryland**—A richly bronzed, red purple with a distinct buff brown at the throat. Given honorable mention by A. I. S.----Each \$1.50
- Nancy Orne**—Lovely blend of fawn and pink. Makes an even compact clump of a very pretty shade of pink when used in mass plantings -----Each 25c
- Nanook**—S. warm amber white slightly deeper at edge; F. pure white with heavy yellow throat. Introduced by Ayers in 1932. The high quality of his more recent introductions is well exemplified in this variety.----Each \$5.00
- Nebraska**—Ruffled flowers of apricot yellow the falls striped a rich brown. Late.----Each 50c
- Nepenthe**—Soft blending of mauve blue with a distinct suffusion of light yellow. A new novelty creating much favorable comment. Each ----- \$1.50
- ..**Neptune**—See bargain list.
- Nine Wells**—See bargain list.
- Numa Roumestan**—An intense, rich red self. A new tall variety of outstanding merit. Each\$1.50
- Oberon**—An iris sure to please. Large flowers of iridescent pinkish lavender. 36 in.----Each 25c
- Odarolac**—One of the best tall blue and mauve blends. Beautiful flaring falls. On exhibition was given a rating of 90. Rugged.-----Each 25c
- Okoboji**—The darkest red growing in the garden. Released by the introducer in 1932.--Ea. 50c
- Old Gold**—Real deep yellow plicata type. The heavy golden yellow of the fall suggested this most appropriate name. After years of close association with iris, I freely recommend this variety as one sure to please-----Each 25c
- Olive Murrell**—Deep rose blended with bronze producing a soft, warm pink. Tall.----Each 35c
- Omaha**—While this iris is spoken of as red, I prefer to class it as very rich, bright pink. Very beautiful indeed. 28 inches-----Each 65c
- Onnoris**—See bargain list.
- †**Opera**—See bargain list

- Ophelia**—A blend of yellow, rose and old gold almost defying description. This pleasing blend of colors gives a very restful feeling when viewed with the brighter colors.—Each 50c
- Orion**—Velvety, blackish bicolor. Extra large on strong 36 inch stems.—Each 35c
- Otoe**—Where a mass of color is needed I feel this iris meets all requirements. A coppery red bicolor of medium height, and extra rugged. —Each 25c
- Palemon**—Very large flowers of light, soft lavender with faint suffusion of fawn.—Each 25c
- Pallida Dalmatica**—See bargain list.
- Parc De Neuilly**—See bargain list.
- Parisiana**—See bargain list.
- Pauline**—See bargain list.
- Peau Rouge**—Rich dark red growing about 28 inches. One of darkest, medium sized reds. Ea. 35c
- †**Peerless**—Gigantic flowers of a glowing mahogany red. Only experienced growers should try this variety as it establishes very slowly. Rhizomes always tiny. —Each 50c
- Perfection**—See bargain list.
- †**Phyllis Bliss**—See bargain list.
- Pink Opal**—A sister seedling of Pink Satin, Probably a little more rugged and a little taller. This variety was not named until after the close of the 1933 season. The quality is beyond question and a nice stock permits this unusual low price. I want to see this fine iris in as many gardens as possible and must limit each customer to one rhizome only.—Ea. \$1.00
- Pink Satin**—Purest soft pink self, well poised on tall stems. Graceful and delicately lovely. Well deserving of its general popularity. Ea. \$3.00
- Pioneer**—Velvety dark red-purple. One of the outstanding values of the garden at the price asked. Fine heavy foliage. 36 inches.—Each 25c
- Pluie D'Or**—Outstanding rich yellow, on tall well branched stems —Each \$1.50
- Pongee**—As the name implies, a light buff colored self enlivened with a rich golden beard. First time offered for sale in this section. Tall —Each 35c
- Prairie Gold**—Deep, pure yellow of medium height and size. Very heavy bloomer.—Each 25c
- Prince Lohengrin**—Delicate pink lavender, much pinker and better than Lohengrin.—Ea. 25c
- Princess Beatrice**—This is conceded to be the best of the light silvery lavenders. Flowers of perfect form and substance.—Each 25c
- Princess Victoria Louise**—See bargain list.
- Prosper Laugier**—See bargain list.
- Prospero**—Large blue-purple bicolor. Finest of habits, the tall strong stems always held well above the foliage.—Each 20c
- Purissima**—Pure white of great size, fine form and heavy substance.—Each \$1.00
- Quaker Lady**—See bargain list.
- Queen Alexandra**—See bargain list.
- Queen Caterina**—See bargain list.
- Queen of May**—See bargain list.

- Quivera**—A mingling of buff, pink, yellow, orange and brown. Of unique beauty, but very difficult to describe. 28 inches. H. M. A. I. S. 1932. ----- Each \$1.00
- Rameses**—Pink and apricot blend. One of the very finest blends the Sass Brothers have ever introduced. Plant vigorous, well branched and stands well up to 36 inches with several of the large flowers open at a time. The Dykes Medal award received by this variety in 1932 positively establishes it as one of the worlds outstanding new varieties.---- Each \$2.00
- Realm**—Intense, pure, rich blue self. Of the very finest in this color. 42 in. Rugged. Each 35c
- Red Splendor**—Medium sized flowers, very ruffled and attractive. A deep wine red. Each 25c
- Red Wing**—A big, dark bronzed red. Has created much favorable comment in the garden. An altogether fine rugged iris----- Each 75c
- Reverie**—An exceptional contrast in red and buff blending to beautiful pink. Late.--- Each 25c
- Rhea**—Medium toned pink blend. Only a few plants offered for sale.----- Each 35c
- Rheingauperle**—A medium pink of exceptional merit. Strong fragrance of orange blossoms. Sure to please. About 34 inches.----- Each 25c
- Rhine Nixe**—See bargain list.
- Robt. W. Wallace**—Rich, dark violet purple. Strong growing habits. 40 inches.----- Each 35c
- Romance**—Garden effect, lustrous rosy bronze. A blend of deeper color than Allure. Large well shaped flaring falls. A Super Iris. 34 inches. ----- Each 50c
- Romola**—S. pale lilac; F. velvety red. A fine large variety of the DOMINION strain. Each 25c
- Rosado**—Clear, soft pink, 36 inches.----- Each 25c
- Rosalba**—See bargain list.
- Rose Marie**—Very stylish variety with distinction all its own. Beautiful blend of soft purple. A new color. 36 inches.----- Each \$2.50
- †**Rose of Cuba**—Fine rich blended pink.--- Each \$2.00
- Roseway**—See bargain list.
- Rota**—Bright rich rosy self. 30 inches.--- Each 25c
- Sachem**—A rich glowing red brown with wide flaring velvety falls. I would rank this iris as one of the best ten at the present time. ----- Each \$5.00
- San Francisco**—Tall well branched stems bearing large white flowers with both S. and F. edged lavender. Winner of Dyke's medal in 1927. ----- Each 75c
- San Gabriel**—See bargain list.
- San Luis Rey**—Deep bronzy red. The garden effect of this fine variety is very pleasing. Ea. 35c
- Santa Barbara**—By all authorities considered one of the very best pure lavender blues. Extra large flowers with beautiful broad flaring falls ----- Each 25c
- Selene**—Pure white of good habits. Fine large flowers on strong tall stems. Perfectly hardy here in the garden without protection in weather well below zero. Selene and Wambliska are the hardy whites we have been hoping for. 40 inches ----- Each \$3.00

- Seminole**—See bargain list.
- Sensation**—Tall, stylish variety with unusual poise. Pure light blue.-----Each \$1.00
- Sequoiah**—One of the richest of the bronzed reds. Large flowers of imposing form and good substance borne on sturdy well branched 42 inch stems. Among the very best.---Each 50c
- Shalimar**—Large, bright blue bicolor.---Each 20c
- Shekinah**—See bargain list.
- Sherwin Wright**—See bargain list.
- Sindjkha**—See bargain list.
- Sir Michael**—Conceded to be one of the best deep blue bicolors. 44 inches.-----Each \$1.00
- Snow White**—Pure snow white with green markings at the throat. Medium height.---Each 35c
- Soledad**—See bargain list.
- Souv De Loctitia Michaud**—Gigantic flowers of lobelia blue. Fragrant. 40 inches.-----Each 50c
- Souv De Mme Gaudichau**—Dark velvety purple bicolor. This variety comes about as near being the perfect iris as any variety yet introduced. About 34 inches.-----Each 25c
- Steepway**—See bargain list.
- Storm Cloud**—See bargain list.
- Sunged**—Very beautiful light yellow. F. striped light brown. A new iris of outstanding quality which is becoming very popular. Late. -----Each 25c
- Susan Bliss**—See bargain list.
- Sweet Lavender**—Dainty rose lavender with beautiful ruffled flaring falls. 38 in.----Each 20c
- Taj Mahal**—See bargain list.
- Tenebrae**—Large flowers of velvety blackish purple. Another fine iris of the famous DOMINION strain. 36 inches.-----Each 25c
- Titan**—This large blue bicolor is claimed to be the largest DOMINION seedling introduced to date. Very finest of substance.-----Each 25c
- †**Tom Tit**—See bargain list.
- †**Trianon**—See bargain list.
- Trojana**—See bargain list.
- Tropic Seas**—The finest violet-purple bicolor produced by SHULL. Large flowers on 40 in. stems. Very colorful in clump.-----Each 25c
- †**Troost**—See bargain list.
- Trostringer**—No variety has done more to boost the popularity of the iris than this one. The color is the most delicate pink imaginable. Such a description does not begin to suggest the beauty of this fine iris. Hardy in the most severe climate and an unusually profuse bloomer. -----Each 25c
- True Charm**—S. and F. white, with delicate margin of blue. Tall with large stately flowers. -----Each 25c
- True Delight**—White with both S. and F. distinctly bordered with old rose. 36 in.---Each 25c
- Turco**—See bargain list.
- Valencia**—An attractive combination of buff and orange. Large ruffled standards. 20 inches -----Each 25c
- Valery Mayet**—See bargain list.

- Venetia**—Tall large flowered, deep to medium
toned blue. Well branched-----Each 25c
- Vesper Gold**—Tall, soft blend, deeper than
Afterglow. This iris combines beautifully
with the tall pink varieties.-----Each 35c
- Vingolf**—S. Creamy yellow; F. rich velvety
violet with a clear edging of light yellow--Ea. 25c
-

SAN FRANCISCO

This cut illustrates the perfect branching habits of this iris. A Dyke's Medal winner and one of the very finest, light colored varieties in existence.

Virginia Moore—See bargain list.

Waconda—A much admired, large red purple
self with a metallic tone. In effect, deep red
with exceptional carrying quality. H. M. A.
I. S. 1931. -----Each 75c

- Wambliska**—This huge flowerd white has received so much favorable comment during the past two seasons that little remains to tell about its fine points. A sure bloomer every season. One to a customer. -----Each \$1.50
- War Eagle**—A deep rich glowing red iris of great size. Most of the so-called large flowered varieties look tiny when compared with this giant. I predict War Eagle to become the most popular iris ever introduced. Have seen a single blossom measure 7 inches, with falls nearly 3 inches wide. One to a customer -----Each \$10.00
- Wedgewood**—Large flowers of Wedgewood blue. One of the most valuable of all irises for making color schemes complete. 36 to 38 inches -----Each 25c
- White Knight**—See bargain list.
- †**Wild Rose**—See bargain list.
- Wm. Mohr**—The ground color pale lilac, the whole flower beautifully veined manganese violet. The huge flowers stand three days in the hottest sun. This Pogocyclus hybrid is proving hardy as to cold in our climate, however the rhizomes grow small. Single separations do not establish well owing to our extreme hot summers. After experimenting over a period of time, have decided to sell this variety in one year old clumps with not less than three rhizomes per clump. Not sold singly. Per clump ----- \$1.35
- W. J. Fryer**—See bargain list.
- Wyomissing**—See bargain list.
- Yolande**—Large velvety violet purple flowers on strong, well branched 36 inch stems. --Each 25c
- Zingara**—A gay little orange variegata, outstandingly different. One of the tiny bright varieties so appropriate for the front row or the rock garden. -----Each 25c
- Zua**—See bargain list.
- Zwanenburg**—See bargain list.

BLOOMING SIZE RHIZOMES

These are the only kind I use in filling orders.

Bargain List

Good standard garden varieties at real rock bottom prices. Priced within the reach of all are these. Many in this list were top-notchers not more than two or three years ago. We are not discarding these varieties, only meeting a popular demand. Each variety selected from strong field grown clumps and properly labeled.

Priced, 10 cents each or 3 of the same variety for 20 cents. Any 15 of your choice labeled \$1.00.

At this price some of these are sure to sell out completely, therefore, selections from this list will be filled in order received and must be paid at time order is placed.

POSTAGE PAID on orders of \$1.00.

Afterglow—Yellowish lavender.

Autocrat—A dark blue bicolor. Always good.

Balboa—Tall, imposing, deep mauve.

Black Prince—Blackish purple.

Bluet—A jaunty sky blue. Fine for massing. 28 in.

Caprice—Reddish purple.

Caterina—Blue bicolor.

Cecil Minturn—Light pink.

Cluny—Tall lavender.

Cretonne—Blackish purple.

Crimson King—One of the best early red purples.

Dalila—S. cream; F. raspberry. Very charming. 25 inches.

Dawn—Soft cream.

Dejah—Tall fragrant bluish mauve. Dependable.

Dorothea—Porcelain blue.

Dream—Fine pink.

Eldorado—Bronze purple.

Eventide—A hazy lilac self. New and very unusual.

Fairy—White, blue toned.

Fedora—Golden brown.

Florentina Alba—Early White.

Fro—Yellow bicolor.

Georgia—Rose pink. One of the finest.

Gertrude—Violet blue.

Grapta—Toast Brown.

Grevin—Rich dark red. Late.

Harpalion—Silvery blue.

Her Majesty—Pink.

Hiawatha—Blue bicolor.

Imperator—Glowing red violet self. Vigorous.

Ingeborg—Early White.

Iris King—Yellow bicolor.

Isoline—A beauty in pink and gold.

Jacinto—Tall, smooth delicate pink. Floriferous.

Juniata—Fragrant purple.

Kaster—Medium blue.

Kochii—Dark purple.

Lady Byng—Rosy lavender.
 Lent A. Williamson—Large, bronzed, purple stand-
 by.
 Lord Lambourne—Tall early, fawn and crimson.
 Good.
 Leonnidas—Tall blue.
 Lohengrin—Lavender.
 Loreley—Yellow and blue.
 Mariposa—Peppered blue.
 Mary Garden—Cream, dotted brown.
 Mme. Chereau—White edged blue.
 Mme. Chobaut—Dotted yellow blend.
 Moliere—Brownish purple.
 Monsignor—Violet purple.
 Mother of Pearl—Iridescent lavender.
 Mt. Penn—Rich pink.
 Mrs. Alan Gray—Pinkish lilac. Early. 28 inches.
 Mrs. Hetty Matson—Fine bronze, fawn and purple.
 Neptune—Blue bicolor.
 Nine Wells—Purple bicolor.
 Onncris—Feathered yellow.
 Opera—Rich red effect. Low growing.
 Pallida Dalmatica—Lavender.
 Parc De Neuilly—Deep violet.
 Parisiana—White, sprayed purple. Recommended.
 Pauline—Reddish purple.
 Perfection—Purple bicolor.
 Phyllis Bliss—Graceful rosy lavender self.
 Princess Vic. Louise—Yellow and violet.
 Prosper Laugier—Velvety brown.
 Quaker Lady—Blended lavender.
 Queen Alexandra—Dark lavender.
 Queen Caterina—Frosted lavender.
 Queen of May—Early pink.
 Rhine Nixe—S. white; F. pansy violet edged white.
 Rosalba—Deep metallic rose.
 Roseway—Pink, tall.
 San Gabriel—Fragrant pinkish lavender. Early.
 Seminole—Velvety red. One of the best. Rugged.
 Shekinah—Light yellow.
 Sherwin Wright—Yellow.
 Sindjka—Silvery lavender.
 Soledad—The much talked of, early yellow.
 Steepway—Fine blended pink. Free flowering.
 Susan Bliss—Tall clear pink. Very good.
 Storm Cloud—Grey drab.
 Taj Mahal—Tall waxy white.
 Tom Tit—Intriguing violet purple self, low, late.
 Trianon—Pinkish buff.
 Trojana—Early blue bicolor.
 Troost—Rose pink, falls heavily striped.
 Turco—Tan lavender.
 Valery Mayet—Catchy rose and red combination.
 Virginia Moore—Bright yellow, late.
 White Knight—Low fragrant white. Late.
 Wild Rose—Dainty rose pink.
 W. J. Fryer—Yellow and purple.
 Wyomissing—Light pink.
 Zua—Ruffled white.
 Zwanenburg—Cream and buff.

\$—SPECIAL—\$

A whole garden, post paid to your door, for only
 ONE DOLLAR, 25 varieties, not labeled, all differ-
 ent including the widest color range.
 Order 1, 2, 3 or 4 of these \$—SPECIALS—\$ and no

two irises will be alike. If all four collections are ordered, will include a surprise iris, labeled.

MISCELLANEOUS IRIS

- I. PUMILA—(Dwarf bearded) 3 of the same variety 25c.

Have a very fine assortment of Mr. H. P. Sass' hybrids. No hybridizer is doing more with the dwarf family than he, and only the very highest quality is represented in this collection.

Can supply the following named varieties:

Atroviolacea—(4 in.) purple.

Bride—(10 in.) fine white.

Coerulea—(4 in.) light blue.

Fairy—(10 in.) blue.

Orange Queen—(6 in.) yellow.

These are very fine for the sunny rock garden, giving touches of rich color just following the crocuses. Will make an assortment of ten varieties, all different, not labeled.

Ten varieties (all different) post-paid \$1.00.

- I. SIBERICA—Beardless 25 cents each.

Alba—very tall white.

Emperor—Large deep violet.

Geo. Wallace—Deep blue.

Perry's Blue—Sky blue.

Blue Charm—(H. P. Sass). New. Not priced.

- I. SPURIA—(Beardless) 25 cents each.

Mrs. Tait—Light blue.

Ochroleuca—Cream, gold center.

BEARDLESS HYBRID

Dorothy K. Williamson, 25 cents each.

Rich velvety, red purple.

BEARDLESS SPECIES.

Dichotoma—(40 in.) Mauve lavender. 25c each

This novelty surely lends variety. The tall spikes bear many flowers at a time, blooming during the hot part of the summer. Hot weather does not seem to affect it. Very fine as cut flowers.

Missouriensis—(15 in.) Lavender. 25c each.

Pseudacorus—(36 in.) Yellow water iris. 25c each.

Will grow in good rich garden soil.

Tectorum—(18 in.) Light blue. 25c each. This is the popular iris grown on roofs in the Orient.

Beardless varieties should be planted in the early spring or late fall to obtain best results.

Also have several choice Japanese Iris. Anyone interested in this branch of the iris family will be sure to find something of interest during their blooming season. No Japanese Iris offered for sale.

ROCK PLANTS

SEDUMS. We have in the Sedums, a specie of plants which fill a long-felt need. They retain most of their foliage during the winter months, and make one of the very first green spots when the spring

days begin to warm the cold ground. Growth continues all summer in spite of the kind of weather or amount of care they receive, covering the bare spots in the rock garden, trailing over a rock ledge or nestling around the tall plants, everywhere in apparent, perfect contentment.

Plants are field grown, having been out-doors the entire winter. Have 18 varieties covering a wide range of habits as to general growth, from the very tiniest to the large, red ,flowered Spectabile.

Priced 10c per plant, 3 plants assorted 25c.

SEMPERVIVUMS—Hen and Chickens

From the main plant (or hen) often as many as 15 or more of the tiny rosettes (chicks) appear nestled under the protecting outer petals, making a most interesting and desirable addition to rock garden. Only hardy varieties having withstood the past winter outdoors is offered.

Priced as to size 10c to 25c per single plant.

CACTI

One of the most interesting branches of the plant family is the cactus, the number of varieties mounting to a very high figure. There is no end of interest in watching the cactus bed bud and open into bloom. And such bright, gorgeous colors. From the size of a penny on to much larger sizes, many as large as tea cups, every blossom in itself a perfect specimen of beauty.

Have on display several hundred fresh, healthy cacti in assorted sizes, covering a wide range of varieties.

Priced, as to size, 10c up.

DWARF IRIS, SEDUMS, SEMPERVIVUMS and CACTUS are especially recommended for rock gardens.
